

IMPORTANT: *For details about listed discussion activities and assignments*, refer to the corresponding module in which they are given.

DISCUSSION ACTIVITIES: Go to the module, and locate the discussion activity(ies) in the *Table of Contents*. **Be sure to check discussion due dates at the beginning of each week.** The purpose of this is to make sure the discussion correspondence is completed by the completion due date.

ASSIGNMENTS: The Assignment is given at the end (last page) of each module. It is possible to submit an assignment multiple times before the due date. You may wish to do this if you would like to make a change after you've submitted it. Assignments may be submitted until **12:00 PM (Noon) Eastern Standard Time** on the due date given (This means that you have all day **Sunday** to finish up your work for the week and the morning of the due date to submit your work through the course pages or via e-mail, do not be misled by the fact that the due date is actually Monday). You may submit assignments up to 4 days late. However, late submissions will be flagged and will cost you one letter grade per day until the four day period has past. **After four days, no credit will be given for a late assignment!**

Week starting with	Module	Activity	Activity due on	Assignment	Assignment due on
12/6	1	Discussion Participation	12/13	Problem Set (see module for details)	12/13
12/13	2	Discussion Participation	12/27
